Subject: Location of PAIR for vehicles in entry BZB-1112553-8
To: "chonglee2002@verizon.net" <chonglee2002@verizon.net>

Dear Mr. Lee,

Thank you for speaking with me today regarding entries BZB-1112553-8 and BZB-1112561-1.

To reiterate, we are testing a sample from BZB-1112561-1, and we hope to have test result by the end of next week.

As for entry BZB-1112553-8, can you please see whether the manufacturer can provide us information on where the PAIR is located in the vehicles covered by engine families ETTNC.150MD1 AND ETTNC.049MD1? Engine family ETTNC.150MD1 purportedly covers the MD150T-8 and MD150T-15 models, and engine family ETTNC.049MD1 purportedly covers the MD50QT-10 model. The information regarding the location of the PAIR in relation to the rest of the exhaust systems and on the vehicles will help us in making a determination of the vehicles for release.

Please let me know if you can get this information to me as soon as you can.

Thank you,

Janice
